

# The Rolling Barrage 2020 – Standard COVID-19 Precautions

**SAFETY is of primary importance** to the organizers of The Rolling Barrage and Military Minds. Although each rider is responsible for his/her motorcycle, we want to assure that you have a safe and enjoyable ride.

**This is the 4<sup>th</sup> year of The Rolling Barrage.** It is unlike any of the previous 3 years we have experienced. Collectively we not only have to be concerned about rider safety during the ride but also at stops within the various communities we travel and stop at. We can each have our own views on the current situation with respect to COVID – 19 but we also have to respect that in the communities we stop at for fuel, food or over-night; there are specific health orders with respect to wearing of masks, social distancing and public gatherings.

We must understand that communities and businesses are also adjusting to health and safety measures and it is our intention to respect those rules and adhere to them.

## Standard COVID-19 Precautions

	<b>Wear a Mask</b> Some provinces or municipalities require wearing a mask in groups, public spaces, or business locations such as retail
	<b>Wash Your Hands</b> Wash your hands on a regular basis when you are able to do so.
	<b>Use Hand Sanitizer</b> When washing hands is not an option, you can use hand sanitizer to disinfect your hands.
	<b>Social Distancing</b> Maintain social distancing while in proximity to others. Most provinces allow for a social bubble of up to 10 people.

**We are in this together.**

**We will get through this together.**
